Dear Ms Susie Li,

Congratulations on re-gaining your Certificate of Compliance and associated Product Compliance Schedules. These documents authorise you to utilise our registered certification trade mark, the PAS-Mark on the certified products listed on the Product Compliance Schedule.

As you are becoming aware having a product orientated management system assists your business to run in an orchestrated manner, ensures the continued compliance of your products and assists you to convey to the marketplace your desired product characteristics which include your products compliance to AS/NZS 2208:2023 Safety glazing materials for use in buildings and AS 4666:2012 Insulating Glass Units. **CSI** look forward to helping you keep this very powerful *"product orientated management tool"* in good condition.

The required marking permitted by certification must be clearly and indelibly marked only on certified products which comply in all aspects with AS/NZS 2208, AS 4666, and the Product Assessment Scheme, Use of Certificate and Trademark Logo, PAS-003.

You must promptly inform **CSI** of any change to the certified products, for example; new types of glazing products that you are not currently certified to toughen in compliance with AS/NZS 2208. We also need to be informed of any change of the company name, or address of manufacture.

Thank you for choosing **CSI** as your preferred third-party certification body.

We welcome your feedback on the process you have just experienced and look forward to any questions you may have.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Azma Khan'.
